Question of the week

I love cocktails and would like to enjoy them at home. But I don't want to have to go out and buy shakers, glasses and loads of equipment. What simple concoctions can I rustle up without too much fuss?

Vicky Walker, Wolverhampton

Try a Tom Collins, with a few variations. Take a highball glass, add any of the gins mentioned today, some lemon juice, sugar syrup, angustura bitters and top up with soda. Or leave out the bitters and add raspberry purée – Funkin' purées, from selected Waitrose stores, are excellent for this – and a dash of raspberry liqueur. 🍷
